In our dedicated quickConnect™ brochure

a fully integrated eContent experience

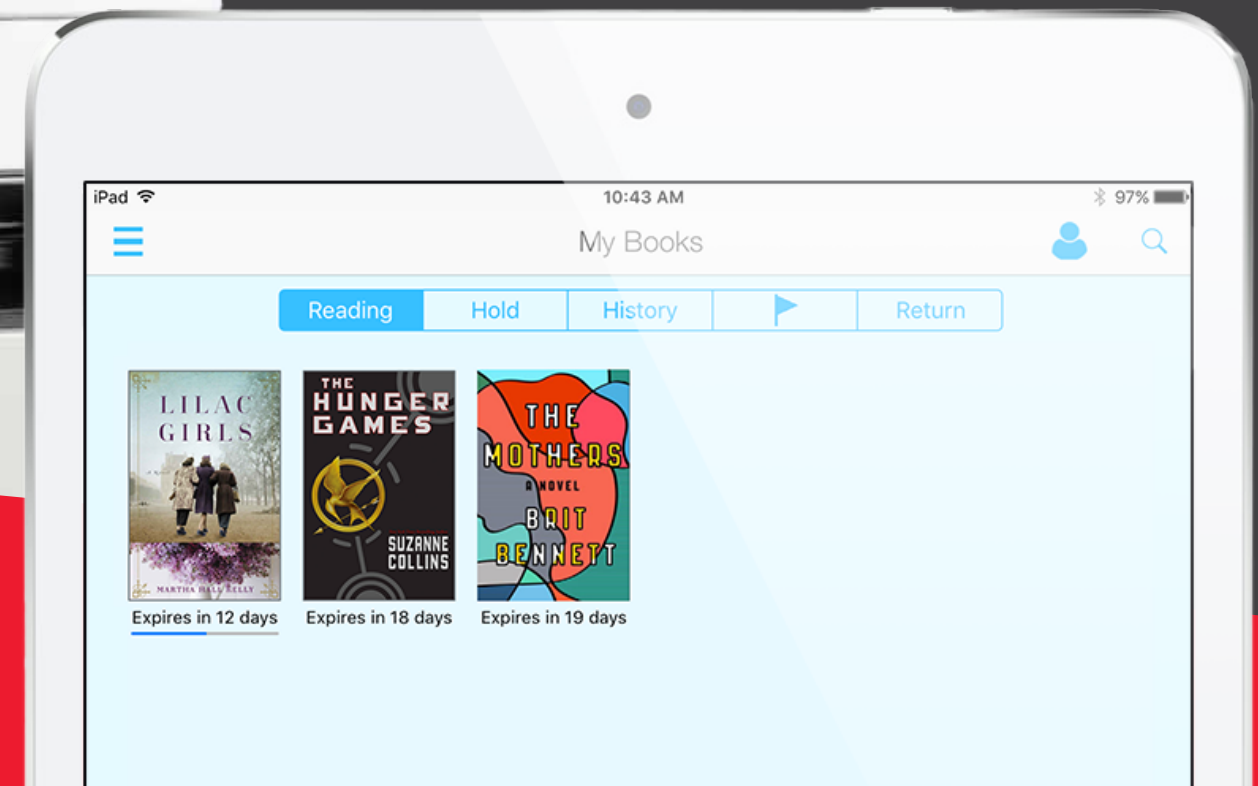

quickConnect and cloudLibrary work hand-in-hand to deliver your digital collection to users right at the selfCheck. Suggested reads and similar titles are presented in a clear and unobtrusive way, allowing eBooks and eAudiobooks to be immediately added to the user's digital shelf. Initially designed for public libraries, cloudLibrary also appeals to academic libraries that want to offer a digital leisure collection to their students without having to visit another library.

attract new digital users from within your library

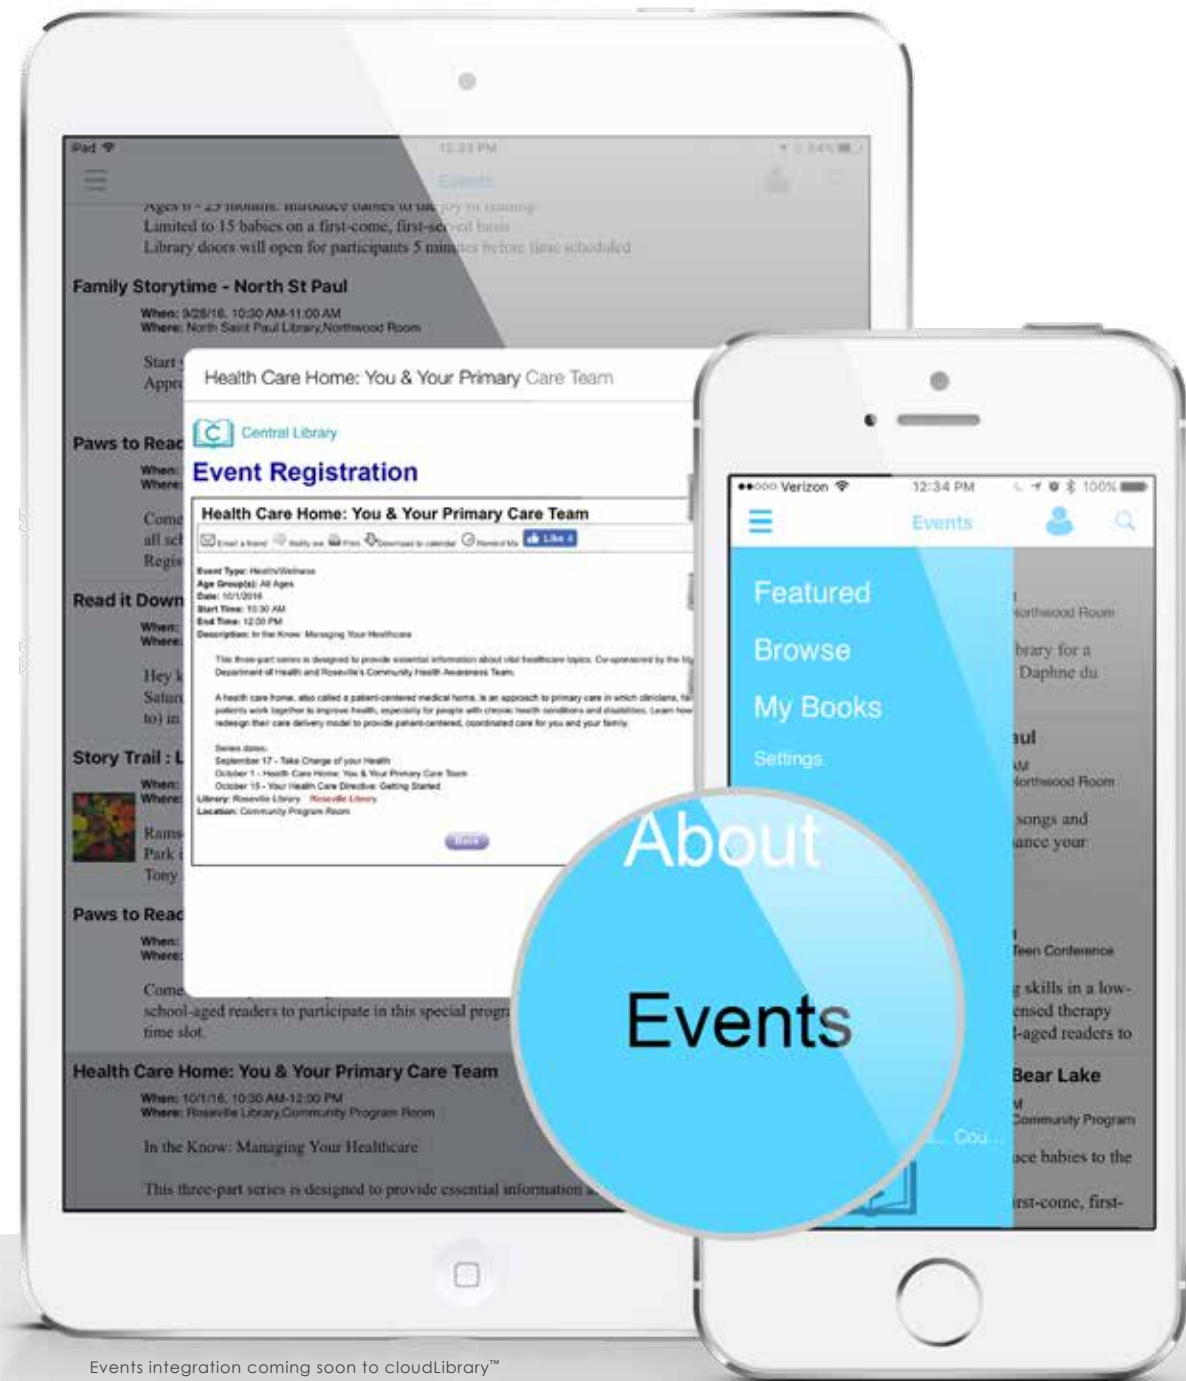

eBook & eAudiobook content from top publishers

simple sign-up and sign-in process

sophisticated synchronization across devices

bibliotheca is the only company that offers an integrated self-service and eContent platform, allowing us to provide libraries with a truly connected and seamless physical, digital, and self-service experience.

Events integration coming soon to cloudLibrary™

the ultimate eContent and events hub for your community

cloudLibrary™, our eBook and eAudiobook solution was designed specifically to engage users, drive digital circulation and increase awareness of library services. With robust ILS and third party integration, promote your digital collection in a variety of ways. Initially designed for public libraries, cloudLibrary also appeals to academic libraries that want to offer a digital leisure collection to their students without having to visit another library.

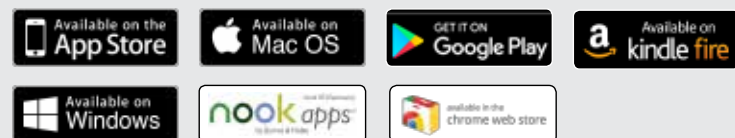

increase your digital circulation and library usage

attract, create, and keep happy digital library users

event integration drives digital users to your physical library

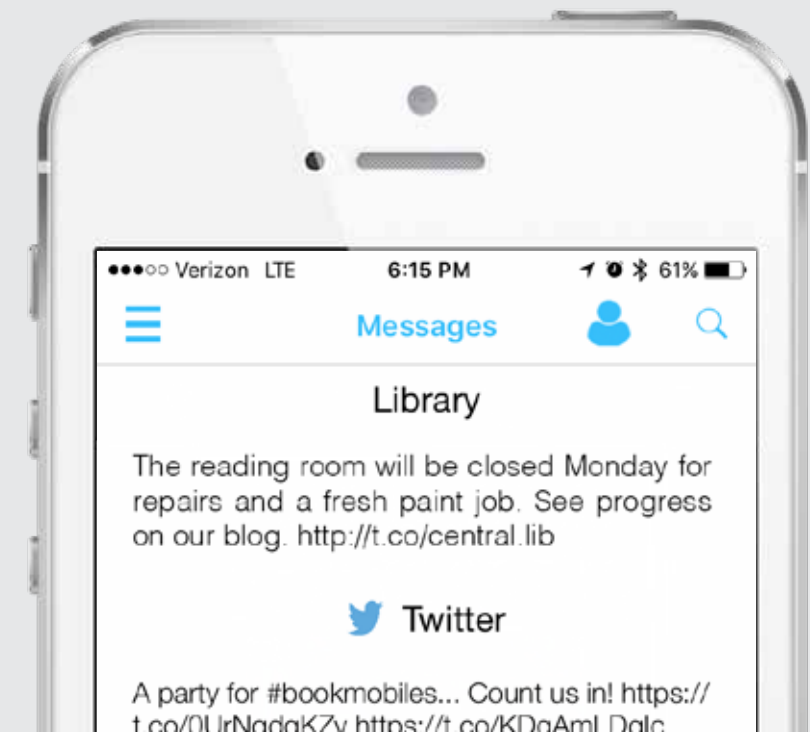

synchronized updates deliver latest event details

relay important library messages and display Twitter feed
