

RF gate Checkpoint PX

high performance, wide aisle detection

The Liberty PX offers exceptional tag discrimination and wide-aisle detection capability in a slim, unobtrusive package. The Liberty product line represents the ultimate in radio frequency (RF) detection systems, featuring patented Digital Signal Processing (DSP) technology. Liberty PX is engineered from impact-resistant, molded through-color thermoplastic for maximum durability.

design/install options

- | create a welcoming library entrance with up to 72" wide single-aisle corridor
- | choose a mounting option that works for your library – direct mount or buried cable
- | meets ADA requirements

excellent security

- | advanced Digital Signal Processing
- | ensure valuable library items are secure with advanced Digital Signal Processing and audible + visual alarms
- | advanced filtering algorithms maximize alarm integrity

reliable performance

- | independent lattice alarms allow easy alarm detection
- | high-durability base ensures lasting performance and low maintenance long-term

Specifications: RF gate Checkpoint PX

Lattice Dimensions	68" h x 19.75" w x 1.5" d (1727mm x 502mm x 38mm)
Base Depth	4.25" (108mm)
Lattice Construction	Frame: Textured, molded-through color, impact resistant SMC plastic Base: Texture, molded-through color, impact resistant injection-molded plastic
Weight	25 lbs. (11.4kg)
Energy Profile	100-240V, 1.6 A max. 50-60 Hz. 60-70 VA power supply Energy Star rated (U.S.)
Accessories Available	Patron Counters Remote Alarm
